Brand Overview

What is Skin Fluent?

Skin Fluent is a virtual skin coaching business founded by Nicole Flores, a licensed esthetician with nearly 20 years of experience. Nicole offers personalized virtual consultations, custom skin coaching guides, and curated professional product recommendations through Pomp Beauty. She also provides in-person facials in Las Vegas.

Brand Positioning

"Skin Fluent" means mastery — Nicole is fluent in skin the way someone is fluent in a language. After two decades, she reads skin intuitively. The brand promise to clients: "Become fluent in YOUR skin." This is expert-led but warm, clinical-level knowledge delivered with approachability and care.

Brand Personality

Vibe	Clean & minimal meets warm & approachable
Tone	Expert but never intimidating
Feeling	Like getting advice from a trusted, brilliant friend
NOT	Clinical, cold, overly luxe, or trendy/influencer-ish

Target Audience

Women 25–55 who care about their skin but feel overwhelmed by the options. They want expert guidance, not more noise. They value professionalism but also warmth — they want

to feel taken care of, not sold to.

SECTION 02

The Chosen Logo Concept

Concept: The Iridescent Monogram

An "SF" monogram inside a circle filled with an iridescent gradient that shifts from periwinkle through lavender to sage. The gradient creates a subtle shimmer effect that feels premium and distinctive. Below the mark sits the wordmark "SKIN FLUENT" with "by Nicole" underneath.

KEY DESIGN NOTES FOR THE MONOGRAM

The SF letters should feel elegant and slightly airy — use a lighter weight (300–400) rather than bold. Allow comfortable spacing between S and F so they breathe. The letters should feel like they belong inside the circle, not crammed in. Consider slight overlap of the S and F for a more integrated, custom feel. The circle itself should have a smooth, multi-color gradient — not a flat single color.

Color Palette

Deep Navy #1B2A4A	Periwinkle #7B8CDE	Lavender #C4B7D5
Primary text, dark backgrounds	Primary accent, gradient start	Gradient midpoint, soft accents
Sage #B5C4B1	Powder Blue #A8C8E8	Cream #FAF6F1
Gradient endpoint, natural warmth	Secondary accent, gradient alt	Light backgrounds, page base

The signature iridescent gradient — this is the defining visual element of the brand:

135° angle · Periwinkle → Lavender → Sage → Powder Blue

GRADIENT SPECIFICATIONS

CSS: `linear-gradient(135deg, #7B8CDE 0%, #C4B7D5 35%, #B5C4B1 65%, #A8C8E8 100%)`

For print / Illustrator: Create a 4-stop gradient at 135 degrees using the hex values above.
For Photoshop or Canva: overlay two gradients with slight transparency to achieve the iridescent shift effect.

The previous Hydradiance brand used Lora and Poppins. For Skin Fluent, we're recommending Cormorant Garamond + Jost as a fresh pairing that better matches the new direction — more refined and modern. However, if Nicole prefers to keep Lora + Poppins for continuity (especially on documents already built), that works too. The logo itself should use Cormorant Garamond regardless.

Logo Usage Rules

DO

- ✓ Use the full iridescent gradient on

DON'T

- ✗ Flatten the gradient to a single color

the monogram circle

- ✓ Maintain clear space around the logo
- ✓ Use on solid dark navy or solid cream/white backgrounds
- ✓ Scale proportionally (never stretch)
- ✓ Use the horizontal version for small spaces
- ✓ Keep the "by Nicole" byline at the specified smaller size

- ✗ Place on busy or photographic backgrounds without a solid backing
- ✗ Rotate the logo or monogram
- ✗ Change the font of the wordmark
- ✗ Add drop shadows, outlines, or effects
- ✗ Make "by Nicole" the same size as "Skin Fluent"
- ✗ Use the monogram without the gradient (no solid grey or black fills)
